

We will make it easy for you to make a purchase decision by selecting from our extensive range of products marked with the following symbols.

Products marked with this sign are best selling products. For our business partners it is a guarantee of sales success and customer satisfaction.

Products marked with this trademark are highly competitive, feature more functionality, or exceptionally attractive price / quality ratio. Our trading partners give it more arguments in relation to the customer and ensure increased sales.

Our new products are those that respond to your current market needs so that your offer is even more diversified and competitive.

ECB-S is the largest international security product certification body, bringing together the most prestigious research institutes in Europe.

Possession of the ECB-S certificate is confirmation of the highest standards of protection.

The patented filling formula gives you less weight while maintaining the highest safety standards. Reduced weight is an advantage for transportation and assembly.

Patented, special type of Ultra High Performance Concrete, with increased hardness compared to traditional concrete, comparable to solid stone.

Quality without compromise. Products bearing this mark are characterized by the highest standards of manufacture and the most up-to-date technologies and materials.

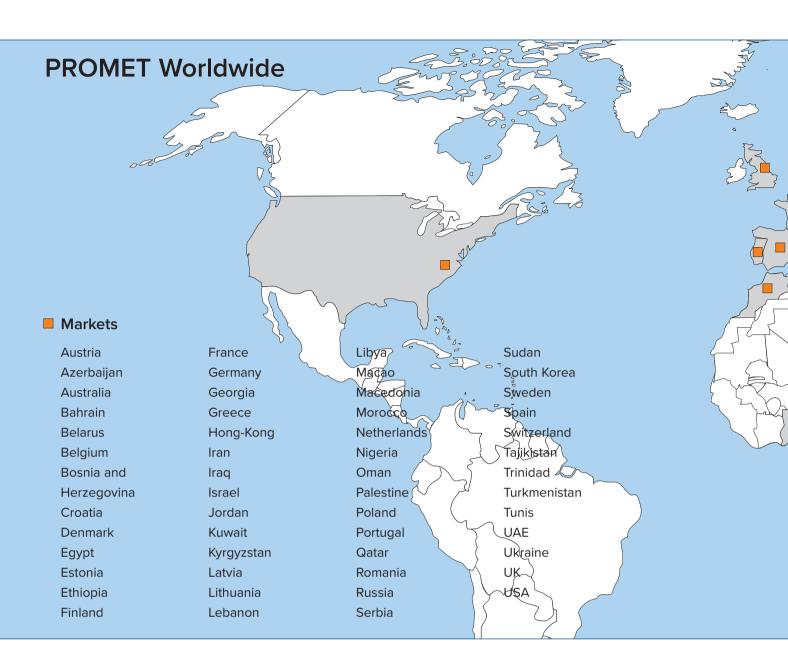

Laser cutting technology used in our production process allows for greater precision of the structure.

The products marked with this sign feature a multi-layer reinforced door and wall construction. This is the «safe in safe» effect.

Multilayered construction. In products marked with this sign the walls consist of alternating layers of sheet metal and special reinforced fillings.

Our history

April

Start promoting first sales of safes.

1993

November

Begin expansion of our distribution network.

2000

April

Launch of our fist manufacturing facility.

2001

September

Our quality management program is certified to ISO 9001.

2008

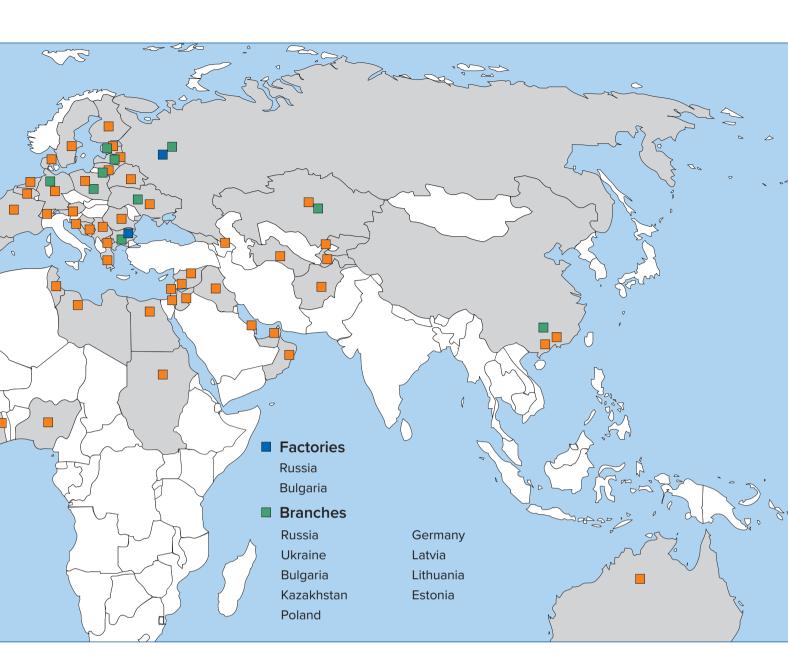

July

Launch of our second and third manufacturing facilities.

Quality

Our approach - provide durable products that meet the highest expectations of our buyers by manufacturing our products to the highest standards.

2009

August

First line of safes certified to ECBS standards.

2013

December

13 safe lines certified to ECBS standards.

2014

November

Manufacture of own certified digital locks and boltwork

2016

25 Year Anniversary

Branches in Baltic Region, Bulgaria, Russia, Germany, Kazakhstan, Poland and Ukraine.

As of september 2001 our quality managment system is certified to the ISO 9001. One of the leading certification organizations in the world, Det Norske Veritas, is acting as our certifying body.

Manufacturing

Group of companies Promet is one of the leading safe manufacturers. The Group has three factories including the main export plant located in the European Union, the Republic of Bulgaria.

The production philosophy is based on the management principles of "lean manufacturing".

The plants implement measures allowing optimized environmental use and minimized environmental pollution resulting from the production.

The plants are equipped with the most advanced metal processing equipment, which is not only sufficiently effective and suitable for production on a large scale, but also flexible and adjustable for manufacturing of a wide range of items and switching quickly among various production types.

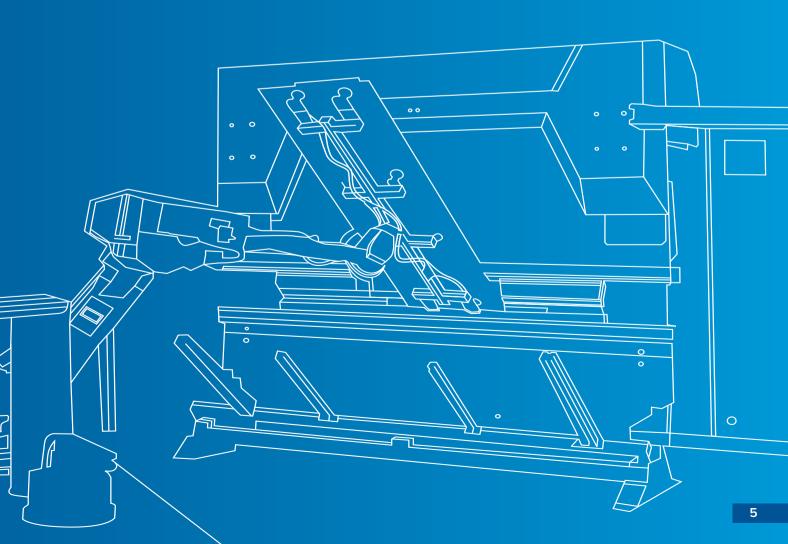

Equipment

- Automatic punching lines PIVATIC
- Laser cutting systems
