[Protecting valuables against fire]

The Wertheim fire resistant products are certified as shown below. Files, data and documents will be reliably protected against fire.

Office cabinets and data safes offer big volume. File cabinets are suitable for storing documents in hanging files. Data boxes are fitted with a carrying handle to make them portable. They are used for storing important documents or computer media and can also be stored in a safe.

For further information regarding fire protection classes see page 04.

[Fire safety boxes]

		Fire protection	
Type ZFA	Office cabinets	DIN 4102	[40]
Type ZFD	Data safes	according to safe type	[40]
Type ZFH	File cabinets	NT Fire 017:60P	[41]
Type ZFX	Data boxes	UL72 125	[41]
