

Access Control Starter, Expansion and Multi-Door Kits

BOOS

Features That Make a Difference

Starter and Expansion Kits

- Everything needed to start a new or expand an existing access control system
- Integrates with Kantech EntraPass security management software
- Cost-efficient, easy to install, easy to use

Multi-Door Controller Kits

- Controls up to 8 or 12 doors from one enclosure (depending on model size enclosure)
- Cost-effectively consolidate multiple controllers in a single enclosure
- Integrates with EntraPass security management software
- Expand system in 4-door increments
- Convenient and space saving

One Kit. Many Solutions.

Choosing an access control system doesn't have to require hours spent sorting through hundreds of software, hardware, and reader offerings. Tyco Kantech's Access Control Kits include all of the essentials needed to get up and running quickly and easily.

Available in different configurations depending on number of doors, Access Control Kits are an ideal way to experience the value that Kantech brings to an integrated security solution. All components are also sold separately, which allows you to easily upgrade the Kantech access control solution to meet your growing needs.

Starter Kits

Kantech Starter Kits offer a comprehensive solution for growing businesses that are seeking an easy-to-use and highly reliable access control system. These all-inclusive kits provide everything you need to create a complete (2- or 4-door) access control system. From the powerful EntraPass software to the KT-1, KT-300, and KT400 door controllers, and all peripherals in between, the Starter Kits ensure that nothing is left to chance.

Expansion Kits

Kantech Expansion Kits offer a comprehensive and easy-to-install solution for small to medium-size businesses to expand their access control system in one-door (KT-1), two-door (KT-300), or four-door increments (KT-400). The expansion kits are compatible with EntraPass Special Edition, Corporate Edition, and Global Edition.

Multi-Door Controller Kits

Multi-Door Controller Kits provide all the necessary hardware components in one box to complete or extend an access control system. From powerful KT-300 PCB controllers to readers and keytags, our kits have you covered. These kits are ideal for large applications where space, time, and budget are important considerations. Rather than having to install separate enclosures for each controller, the kits enable you to mount multiple controllers inside a single enclosure.

Multi-Door Kits are also available to expand the system in 4-door increments. The expansion kits leave nothing to chance and provides the basic peripherals to expand your system, such as additional KT-300 controllers, transformers, rechargeable batteries, and more – all with the convenience of one model number.

About Johnson Controls

Johnson Controls is a global diversified technology and multi-industrial leader serving a wide range of customers in more than 150 countries. Our 120,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat.
